

Job Description: Psychiatric Nurse Practitioner

ChangePoint Counseling is unlike any other practice in the Dallas Area. Since our inception over a decade ago, the caring licensed counselors, psychologists, social workers, nurse practitioners, and psychiatrists at ChangePoint Counseling have provided high-quality professional mental health services to thousands of individuals, couples and families in Forney, and the greater Dallas area.

ChangePoint is seeking to hire a Full-Time Psychiatric Nurse Practitioner to join our team in Forney, TX.

Primary Duties

- Conduct psychiatric evaluations under the supervision of an MD
- Treat mental health disorders with medication and psychotherapy
- Coordinate patient care with ancillary providers
- Effectively communicate with referring providers and client family members
- Work with support staff to authorize prescription refills and medication changes
- Attend weekly care coordination meeting
- No on-call, nights, or weekends

Qualifications

- Valid TX license
- PMHNP Board Certification (required or FNP with 2+ years in mental health setting)
- Valid DEA registration
- Insurance Credentialing (preferred but not required)
- Excellent written & verbal communication in English
- Comfortable with PC and charting electronically on EMR (Dr. Chrono)

Employee Compensation/Benefits Include

- Competitive base salary with merit-based salary increases
- Health benefits available
- 100% employer paid malpractice coverage
- Paid CME time
- 3 weeks PTO per year
- 9 paid holidays

- License reimbursement
- Administrative support for credentialing and licensing
- All equipment provided as well as 24/7 tech support
